

GBSI To Support Multiple Contracts Delivering NETC Training

PENSACOLA – February 17, 2017 – Global Business Solutions Inc. (GBSI), an innovator in information technology services and technical training, has announced their inclusion in the award of three contracts to deliver education and training support services to the Naval Education and Training Command (NETC).

Deliverables will include analysis and design of self-paced, group-paced, and blended training, learner assessments and performance support systems and support of the Navy's Sailor 2025 initiative. This work requires instructional system designers with a Navy background, graphic artists, analysts with Navy training knowledge and many other specialties.

"We're thrilled with the opportunity to provide support to the Navy in their critical mission to train our nation's sailors," says Randy Ramos, GBSI founder and CEO. "Our GBSI team will help enhance the Navy's educational curriculum and workforce readiness by providing state-of-the-art learning solutions and services."

Work on the contracts will be performed in Chesapeake, Va., and Pensacola and Orlando, Fla.
